BioSkin Hinged Knee Skin

Hand Wash & Air Dry Only | Same Day Dispatch | Breathable | ISO:13485 Accredited

The BioSkin Hinged Knee Skin is designed to provide compression and support to the knee joint. The bi-centric, aluminium hinges make it one of the lightest hinged knee brace on the market. The hinges provide support to the joint so you can feel more confident during any activity. It is constructed in BioSkin's unique proprietary hypoallergenic, compressive material that provides comfortable support, with a patella buttress surrounding the kneecap to reduce any swelling and to help the patella track correctly.

Pull on

Material - Ultima/Stratus

The BioSkin range of pull-on knee braces are made with a highly compressive lycra-based fabric to maximize pain relief, control swelling and enhance proprioception.

Indications for use

- Knee stability
- Patellofemoral pain
- General knee pain
- Patella Tracking Disorder

Features and benefits

- Bicentric, aluminium hinges support ligaments and allow natural motion of the knee
- Pull-on version includes foam buttress around the patella for additional stabilisation
- Compressive material
- Lightweight
- Hypoallergenic

Sizing Information - Ultima material

Circumference with knee fully extended			
Size	**Mid-patella (mm)**	**180mm above mid-patella (mm)**	**Code**
XSmall	310 - 330	410 - 460	41300O
Small	330 - 360	460 - 510	41301O
Medium	360 - 410	510 - 560	41302O
Large	410 - 430	560 - 640	41303O
XLarge	430 - 460	640 - 710	41304O
