

BioSkin AFTR Pull On

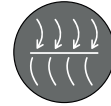

Material - Ultima

Hand Wash &
Air Dry Only

Same Day
Dispatch

Breathable

ISO:13485
Accredited

The AFTR pull on is designed to stabilise the ankle and provide compression for pain relief. The sleeve and stirrup can be used strap to recover from surgery, sprains, or ankle osteoarthritis pain. Non-elastic stirrup control hindfoot and limit inversion and eversion. The AFTR is constructed from a breathable, hypoallergenic Ultima material that can be trimmed for a customised fit. The AFTR is slim enough for most shoes.

Indications for use

- » Ankle sprains
- » Post surgery
- » Swelling control
- » Ankle Osteoarthritis pain

Features and benefits

- » Reduces swelling and stabilises joint after injury
