

BioSkin Boomerang

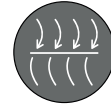

Material - Lined with microfleece

Hand Wash &
Air Dry Only

Same Day
Dispatch

Breathable

ISO:13485
Accredited

This simple wrist compression wrap is constructed from a light and breathable material to comfortably provide compression and support for minor wrist injuries. The Wrist Wrap prevents wrist pain by compression and mild support. The compression will increase proprioceptive feedback to the brain, improving coordination and preventing unwanted movement of the wrist joint. Wrap around either wrist before repetitive movements or heavy lifting to provide mild support to the joint.

Indications for use

- » Osteoarthritis of carpometacarpal joint
- » Over-use injury
- » Sprains and strains in the CMC area
- » Minor sprains and strains
- » RSI
