

BioSkin Elbow Skin

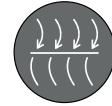

Material - Latex Free

Hand Wash &
Air Dry Only

Same Day
Dispatch

Breathable

ISO:13485
Accredited

The standard Elbow Skin is an effective pain management tool for most elbow injuries. The material is lightweight, breathable, and durable while providing medical-grade compression to the injured area. Gentle compression increases circulation, enhancing recovery and pain relief from injuries like Tennis and Golfer's Elbow. Compression also helps boost endurance and heighten proprioception. Use this elbow sleeve to keep your muscles working at their best during and after exercise.

Indications for use

- » Tennis elbow
- » Golfer's elbow
- » Elbow pain
- » Performance enhancement
- » Recovery

Features and benefits

- » Soft material wicks moisture during use
- » Control joint swelling and facilitates recovery from minor injuries
