Dispatch

Breathable

ISO:13485
Accredited

The Gladiator knee brace is designed to protect the ligaments of the knee and provide extra stability to the joint. The brace comes as a pull on or wrap around design and includes a long, durable, 15 inch hinge to limit painful motion and support the knee. The hinge has range-of-motion control so you can limit joint motion to a specific degree of flexion and/or extension. The top and bottom of the hinge can be bent to fit the specific contour of your leg for customizable comfort. A silicone gel pad circles the knee cap to provide passive massive and swelling control. Breathable, hypoallergenic materials provide medical-grade compression to enhance recovery and reduce inflammation. This is a great option for a post-op knee brace. There is a choice of material, for high-compression choose Ultima, for comfortable everyday use choose Stratus.

Pull on

Material - Stratus/Ultima

The Gladiator pull-on knee braces are made with a highly compressive lycra-based fabric to maximize pain relief, control swelling and enhance proprioception.

Indications for use

- » ACL Tear
- » Meniscus Tear
- » Ligament Support
- » Post-Op Knee Stability

Features and benefits

- » Clinically validated pain relief
- » High patient satisfaction
- » Enhanced pain relief
- » Adjustable sizing
- » Contoured cut
- » Improved proprioception
- » Easy to fit, apply and use
- » Hand wash and air dry
