Dispatch

Breathable

ISO:13485
Accredited

The Q Baby is a simple yet premium low-profile support to relieve patellar tendon pain that results from injuries and Osgood schlatter. The brace wraps just below the knee and is lined with soft, moisture-wicking microfleece to keep you cool, dry, and comfortable. A uniquely shaped silicone gel pad is positioned directly on the patellar tendon to add compression and relieve pain. The compression helps to enhance recovery and increase the surface contact area of the joint, allowing it to work smoothly and without pain.

Indications for use

- » Osgood schlatter
- » Patellar tendonitis
- » Patellofemoral pain
- » Mild knee pain

Features and benefits

- » Silicone pad sits on top of the patellar tendon to relieve pain from patellar tendonitis, patellofemoral syndrome, or Osgood-Schlatter Disease
- » Lined with a breathable, hypoallergenic microfleece
- » Innovative two-strap design
