The Q Brace allows for multidirectional traction of the patella, making it a great option for anyone with patellar tracking problems or patellofemoral pain. The T-strap can be positioned on either the medial or lateral side to prevent subluxation and provide dynamic control of the patella. Flexible stays on each side of the brace provide extra support to the entire joint. Breathable and hypoallergenic materials make this patella tracking brace comfortable for all-day use. The Q Brace is available as a pull on or wrap around.

Pull on

Material - Ultima

The Q Brace pull-on knee braces are made with a highly compressive lycra-based fabric to maximise pain relief, control swelling and enhance proprioception.

Indications for use

- » Patella Tracking Pain
- » Lateral Tracking Patella
- » Glide and Tilt Control
- » Medial Tracking Patella

Features and benefits

- » Universal design (Q strap works on either knee and can track in multiple directions)
- » Prevent subluxation
- » May also be worn as a hinged knee brace without the Q strap
- » Also available with a conforma hinge
