

# BioSkin Standard Back Skin

**Material** - Latex Free

Hand Wash &  
Air Dry Only

Same Day  
Dispatch

Breathable

ISO:13485  
Accredited

The Back Skin provides customisable support and compression to your lower back. The hook & loop attachment site inside the wrap allows you to choose between the Flexible Lumbar Support or the Lumbar Pad. The Flexible Lumbar Support is wider and stiffer, designed for extra support and compression throughout your entire lower back. The Lumbar Foam Pad is smaller and made from a softer material for targeted compression to the sorest area of the lumbar region. The flexible side stays on the Back Skin provide comfortable support (even while sitting or bending over) and help to improve your posture. The slim-fitting design of the Back Skin allows you to discreetly wear under it your clothing for all day support and comfort.

## Indications for use

- » Lower back pain
- » Lumbago
- » Mild lumbar sprains

## Features and benefits

- » Customisable support and compression
- » Choice between the Flexible Lumbar Support or the Lumbar Pad
- » Designed for extra support and compression
- » Targeted compression to the sorest area of the lumbar region
