

Spinal

Standard Belt				
STB/02	STB/03	STB/05	STB/07	STB/08

Description

An orthosis designed to provide support to the lower back region. The brace features flexible plastic stays to remind the wearer not to twist or bend. The belt improves posture thus reducing pressure on the discs in the lower back. The brace is constructed from white elastic, providing a combination of support, compression, heat retention and comfort. The contoured shape of the brace has an anterior depth of 170mm and a posterior depth of 210mm.

Intended Purpose

To provide back support for an array of injuries and conditions, including Pre or Postoperative treatment for: Sciatica, Lumbosacral strains, General posture support, Degenerative disc disease.

Sizing

Measure the circumference of the waist.

⚠ Fitting Instructions

We recommend the initial fitting of the device be conducted by a suitably qualified Healthcare Professional who will advise fitting, removal and period of use.

1. Open the front hook and loop fastening
2. Align the brace to the midline of the lower back, with the flexible steels lying on either side of the spine **See Fig.1.**
3. Wrap the brace over itself in front of the body and fasten the hook and loop to secure the belt **See Fig.2.**

Contraindications

- Must not be used by individuals for whom compression is contraindicated
- Do not use on open wounds
- Any known allergy and/or hypersensitivity to any material listed in the product composition
- Caution should be used if prescribed to patients with diabetes, vascular deficiency and neuropathy

Warnings and Precautions

- Carefully read all instructions and warnings before use
- Follow all instructions to ensure proper performance of the brace
- Do not use if liniments, ointments, gels, creams or any other substances have been applied to the affected area
- Do not reuse for another patient, doing so risks cross-infection and can compromise product integrity
- To ensure the straps are not over tightened, perform regular skin and circulation checks, especially for patients with diabetes, vascular deficiencies and neurological conditions
- Should any adverse reactions occur, please remove, do not use and contact your healthcare professional or provider
- Check brace and all components for wear and tear
- The hook and loop fasteners must always be fastened when the device is not being worn or when being washed
- The durability of the device may be compromised by certain factors, e.g. objects with sharp edges or damage to the hook and loop fasteners

Washing and care instructions

- Cover all the hook and loop straps and remove metal bars
- Hand wash the brace in cool water using a mild detergent
- Rinse and air dry flat
- Do not spin or tumble dry
- Do not use fabric conditioner at any time
- Check for any degradation that may affect use
- Periodically check the hook and loop straps are operating securely

Product composition

Elastic, Hook and Loop, Latex

Storage and transport conditions

Store in a cool, dry place out of direct sunlight, in the original packaging.

Recycling and disposal

Packaging and constituent parts should be recycled or safely disposed of in accordance with local or national laws.

Serious incident

Report any serious incident to the manufacturer and the competent authority of the EU Member State, or Country in which you reside.

Wash symbols

Hand wash

Dry flat

Do not tumble dry

Do not bleach

Do not dry clean

Do not iron

Contains natural rubber latex
