

Knee & Lower Limb

Patella Stabiliser O, Patella Stabiliser U			
PS/113	PS/115	PS/117	PS/118
PS/133	PS/135	PS/137	PS/138

Description

An orthosis with reinforced shaped buttresses centred around the patella, providing targeted compression and support while keeping the kneecap in place, preventing displacement without restricting movement. Patella Stabiliser O features a doughnut shaped buttress and Patella Stabiliser U features a horseshoe shaped buttress.

Intended Purpose

To provide knee and lower limb support for an array of injuries and conditions, including Pre or Postoperative treatment for: Arthritis, Aching joints, Patella disorders that need efficient control and Weak and injured knees.

Sizing

Measure the circumference of the knee at mid-patella, the thigh 152mm above mid-patella and the calf 152mm below mid patella.

⚠ Fitting Instructions

We recommend the initial fitting of the device be conducted by a suitably qualified Healthcare Professional who will advise fitting, removal and period of use.

1. Place the foot through the brace with the widest part of the brace at the top and the hole and padded circle at the front
2. Pull the brace up to cover the knee, ensuring the open circle sits at the middle of the knee and the padded circle surrounds the knee

Contraindications

- Must not be used by individuals for whom compression is contraindicated
- Do not use on open wounds
- Any known allergy and/or hypersensitivity to any material listed in the product composition
- Caution should be used if prescribed to patients with diabetes, vascular deficiency and neuropathy

Warnings and Precautions

- Carefully read all instructions and warnings before use
- Follow all instructions to ensure proper performance of the brace
- Do not use if liniments, ointments, gels, creams or any other substances have been applied to the affected area
- Do not reuse for another patient, doing so risks cross-infection and can compromise product integrity
- To ensure the brace is not too tight perform regular skin and circulation checks, especially for patients with diabetes, vascular deficiencies and neurological conditions
- Should any adverse reactions occur, please remove, do not use and contact your healthcare professional or provider
- Check brace and all components for wear and tear
- The durability of the device may be compromised by certain factors, e.g. objects with sharp edges

Washing and care instructions

- Hand wash the brace in cool water using a mild detergent
- Rinse and air dry flat
- Do not spin or tumble dry
- Do not use fabric conditioner at any time
- Check for any degradation that may affect use

Product composition

Neoprene, Hook and Loop

Storage and transport conditions

Store in a cool, dry place out of direct sunlight, in the original packaging

Recycling and disposal

Packaging and constituent parts should be recycled or safely disposed of in accordance with local or national laws

Serious incident

Report any serious incident to the manufacturer and the competent authority of the EU Member State, or Country in which you reside

Wash symbols

Hand wash

Dry flat

Do not tumble dry

Do not bleach

Do not dry clean

Do not iron
